Michael Keating is Professor of Medicine in Hematology at the MD Anderson Cancer Center in Houston, Texas. He is also Associate Head of Clinical Research in the Division of Medicine. In 1988 he was awarded the Service to Mankind Award by the Leukemia Society of America and in 1996 was voted one of the best doctors in America by *American Health Magazine*. Author of more than 300 scientific publications, particularly devoted to Hodgkin's and non-Hodgkin's lymphomas, his current research interests focus on development of potentially curative therapies for chronic lymphocytic leukemia and of rational combinations of new agents for the treatment of leukemia in general.

Claudio Anasetti, born in Terni, Italy, is Professor of Medicine at the University of Washington, Seattle, Washington. From 1990, he is the Director of Unrelated Donor Marrow Transplants at the Fred Hutchinson Cancer Research Center of Seattle. Member of the American Committees of the National Marrow Donor Program from 1991, he was elected Council President of the National Marrow Donor Program in 2001. Author of more than 300 scientific publications, particularly devoted to hemopoietic stem cell transplantation, his current major research interests are focused on T cell tolerance and clinical marrow transplantation from partially histocompatible donors.
